

CONVEXion®

Seamless Beauty

CONVEXion® blends seamlessly within a modern environment. The unique convex face is clean allowing your information to stand out and be noticed.

Convex Face

Allows information and/or images to stand out from the wall while complimenting and enhancing the environment. **CONVEXion®** provides a smooth seamless blank canvas on which to create and customize your message.

Freedom

Limitless possibilities within the sign face for images or text without restrictions on placement. Easily change the message by removing the liner and using the **INdependence** system (in house) or **INservice** for quick & convenient support.

Finishes

All sign components can be customized to suit any setting. Make your mark by choosing from materials that include anodized, polished or custom painted aluminum, acrylic and wood laminate to create a unique sign.

Guarantee

We are committed to quality. **INSIGN** products are guaranteed to be free from defect in materials and workmanship under normal consumer use for 5 years after product is supplied or installed.

System Features

End caps are 1/4" rounded Styrene with a flat or bull-nosed end in standard colours including: black, grey, white, green or red. **End caps** of similar thickness can be produced using aluminum, wood or acrylic with natural or painted finish.

Aluminum **side frame** extrusions are available in a variety of finishes including anodized, polished or painted a customer specified colour.

Back plate is customer specified laminate colour.

Standard **liners** are made from clear Mylar with vinyl text and/or graphics applied to face or back of liner. **INDependence System** users have ability to create messaging in house from supplied templates or **INService** provides quick convenient system support.

CONVEXion® meets the requirements of the **Americans with Disabilities Act (ADA)** with tactile and braille options for the visually impaired. This feature maintains the changeability of the full plaque range.
