

PRESENCE[®]

Sophisticated Elegance

Presence[®] is an ideal way to incorporate both permanent information and changeable messaging in one stylish package. Customize **Presence[®]** to suit your next design.

Cascade

An exclusive design to Insign that adds a twist to the classic wayfinding system. The cascading top compliments the multi-layered face with a two tone effect providing definition and texture.

Impact

Great visual impact combined with innovative design that allows you to get your message across.

Finishes

Presence[®] features a non-glare back painted acrylic face plate contrasted against a larger laminate or custom painted back plate. The contrasting plate sizes create a border around the entire sign.

Guarantee

We are committed to quality. **INSIGN** products are guaranteed to be free from defect in materials and workmanship under normal consumer use for 5 years after product is supplied or installed.

System Features

Presence® has a non-glare acrylic **sign face** that is slightly smaller than the back plate. It is back painted a custom colour and incorporates both permanent information and changeable messaging.

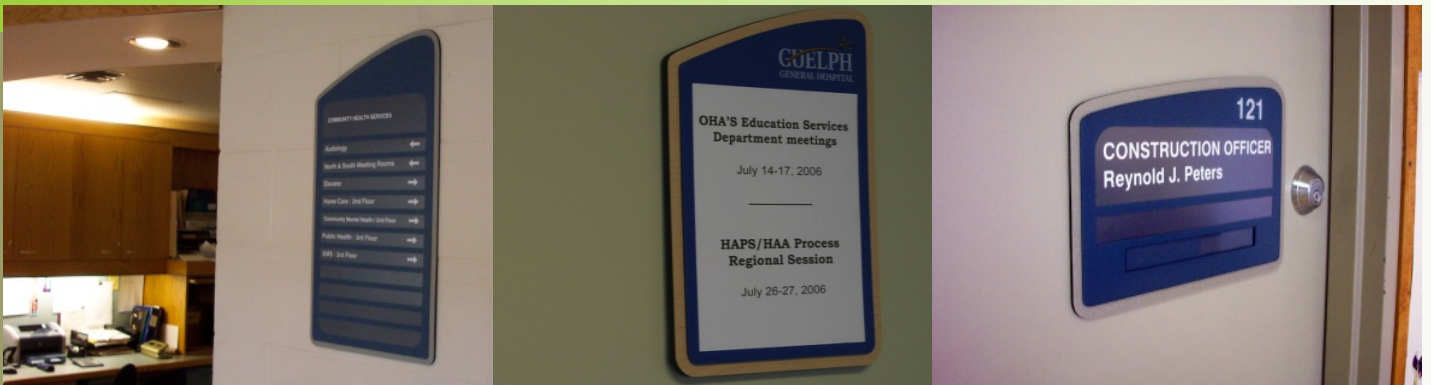

Slightly larger than the face plate, **back plates** can be custom painted or have a laminate applied in a colour contrasting the face. The larger back plate creates a border around the entire sign.

Liner material easily slides between the face and back plate. Standard liners are made from clear or painted Mylar with vinyl text and/or graphics applied to the liner. **INdependence System** users have ability to create messaging in house from supplied templates or **INService** provides quick convenient system support.

Presence® meets the requirements of the **Americans with Disabilities Act (ADA)** with tactile and braille options for the visually impaired. This feature maintains the changeability of the full plaque range.

Available Formats: Central Directory Sub-Directory Wayfinding Plaques
